EDUCATION

B.Tech

CHARUSAT university, Changa.
2017 - 2021

HSC

Nirmal School, Morbi.
2015 - 2017

SSC

Nirmal School, Morbi.
2014 - 2015

SKILLS

- Javascript
- Typescript
- React JS
- Graphql
- Next JS

WORK EXPERIENCE

Software Engineer

03/2021 - PRESENT

Simform Solutions | Ahmedabad, India

- Developed and maintained scalable and efficient React.js components for a variety of web applications.
- Integrated RESTful APIs and third-party services to fetch and update data in real-time, using technologies such as Axios and Redux for state management.
- Implemented client-side routing using React Router to enable dynamic navigation and enhance user interaction within the application.
- Actively participated in Agile development methodologies, attending daily stand-up meetings, sprint planning sessions, and retrospectives to ensure smooth project execution.
- Conducted thorough code reviews and provided constructive feedback to teammates, promoting code quality and adherence to industry best practices.
- Successfully collaborated with cross-functional teams, including backend developers and QA engineers, to integrate front-end components seamlessly into the overall architecture.
- Actively kept up to date with the latest React.js trends and developments, incorporating new features and enhancements into project workflows.

React JS Developer - Trainee

01/2021 - 03/2021

Simform Solutions | Ahmedabad, India

- Participated in an intensive trainee program focused on React.js development, gaining hands-on experience in building modern web applications.
- Assisted in developing and maintaining React.js components under the guidance of senior developers, adhering to best practices and coding standards.
- Contributed to the integration of RESTful APIs, fetching and displaying dynamic data in React.js applications using technologies such as Axios.
- Explored and gained familiarity with state management concepts, including Redux, and implemented basic state management solutions in React.js applications.
- Demonstrated a proactive attitude towards learning, researching new features and technologies in React.js, and applying them in small projects to expand knowledge and skills.
